

WEB PROGRAMIRANJE PHP2
DOKUMENTACIJA PROJEKTA
„FIRST“ (proceduralni PHP)

Student:

Dušica Cakić 22/13

Beograd 2018.

Sadržaj

1. UVOD

KORIŠĆENI PROGRAMSKI JEZICI

OPIS FUNKCIONALNOSTI

TEMPLATE

KORIŠĆENI CSS

2. ORGANIZACIJA

ORGANIZACIONA ŠEMA

MAPA SAJTA

SLIKE STRANICA I OPIS FUNKCIONALNOSTI

3. KODOVI

4. BAZA PODATAKA

1.Uvod

Korišćeni programski jezici

Pri izradi sajta koristila sam HTML, CSS, AJAX, javaScript, Bootstrap, PHP, mySQL bazu podataka.

Opis funkcionalnosti

Dinamički meni ,kao i sadržaj je zastupljen na svim stranicama sajta,galerija je na stranici gallery.php koja uz pomoć ajaxa prikazuje slike iz baze podataka,korisnik se loguje na stranici login.php i zavisno od uloge se redirektuje na odredjenu stranicu,anketa ,vesti na stranici news.php se dinamički ispisuju iz baze i omogućeno je straničenje pomoću ajaxa,kontakt forma na stranici contact-us.php omogućava slanje mejla administratoru sajta uz proveru forme regularnim izrazima,forum.php sadrži mogućnost ostavljanja komentara logovanim korisnicima,na stranici registration.php je omogućeno korisnicima sajta da se registruju a podaci s eproveravaju regularnim izrazima, na stranici buy.php se pretraga vrši pomoću ajaxa a sadržaj se dinamički ispisuje iz baze,admin panel za brisanje ,izmenu i dodavanje sadržaja sajta.

Template

```

<?php @session_start();?>

<!DOCTYPE html>
<html lang="en">

PROJECT HERO: LAND ROVER AND RED CROSS
2018-02-06 12:58:34
Jaguar Land Rover Special Vehicle Operations (SVO) has designed and engineered a bespoke version of the new Land Rover Discovery for use by the Austrian Red Cross. 'Project Hero' was presented to the world's media for the first time at the Geneva Motor Show.

Project Hero is an advanced communication vehicle, created to support Jaguar Land Rover's partnership with the International Federation of Red Cross and Red Crescent Societies (IFRC), the world's largest humanitarian network. SVO collaborated with the Austrian Red Cross to develop a unique Land Rover that will be trialled by their emergency response teams. It is hoped it will help the Red Cross save lives by speeding up response times to disasters.

Test Drive: 2018 Kia Stinger
2018-02-02 12:27:18
Kia's problem is not design, is not quality, is not value, and especially now that the 2018 Stinger is arriving, is not performance. Perception is the problem. And it seems as though nothing the company does, from winning quality awards to selling a true full-size luxury car, allows it to shake its image as an inexpensive alternative to something you'd really rather drive.

Na stranici registration.php je omogućeno korisnicima sajta da se registruju a podaci se proveravaju regularnim izrazima.

The screenshot shows the 'Registration' page of a website named 'First'. The page has a dark blue header with the 'First' logo and navigation links: Home, All vehicles, Forum, Gallery, Contact, and Pages. Below the header is a green banner with the title 'Registration' and a breadcrumb trail: Home / Pages / Registration. The main content area is light gray and contains a registration form with fields for Username, E-mail, Password, and Password (Confirm), followed by a green 'Register' button. To the left of the form, a red error message reads 'Username is in wrong format'. To the right, a blue button labeled 'Rectangular Shop' is visible. At the bottom of the page, there is a dark blue footer containing a poll titled 'Do you like cars?' with radio button options 'Yes', 'No', and 'Too much', and a 'Vote' button. To the right of the poll is an 'Address' section with contact information for 'First' and a 'Newsletter' section with an email input field and a 'Get' button.

Na stranici buy.php se pretraga vrši pomoću ajaxa a sadržaj se dinamički ispisuje iz baze.

The screenshot shows the 'Buy' page of the 'First' website. The header and green banner are identical to the registration page. The main content area is light gray and features a car search interface. At the top, there are two dropdown menus labeled 'Choose...' with 'Niro' selected in the first one. Below this, a car image is shown with the text '2020' and '3000\$'. A table lists car models and their prices:

Hyundai	
Kia	
Range Rover	
Range Rover Discovery 2018 15000\$	Range Rover Sport 2017 14000\$
Range Rover Velar 2016 13000\$	Range Rover Evoque 2015 12000\$
Bmw	

The footer is identical to the registration page, featuring the same poll, address, and newsletter information.

Naziv	Vest
ELEVATED PERFORMANCE	The status of Range Rover as the world's finest SUV has been further reinforced by the introduction of the Range Rover SVAutobiography Dynamic.
ADVANCED TECHNOLOGY FOR 2017	Range Rover Sport's status as the world's ultimate luxury performance SUV has been strengthened with a range of enhancements. The latest model features the most efficient powertrain yet, the introduction of innovative new autonomous driving technologies and greater scope for bespoke personalisation. One of the most significant additions to the 2017 model year Range Rover Sport comes under the bonnet, with the introduction of Jaguar Land Rover's advanced 2.0-litre four-cylinder Ingenium diesel engine. The state-of-the-art powerplant provides enhanced fuel efficiency with emissions as low as 164g/km* and capable of 45mpg*, without compromising performance compared to the 3.0-litre TDV6. The new Ingenium engine is also lighter, providing improved responses, enhanced agility and superior dynamics.
BMW 3-Series spy shots and video	Feast your eyes on the latest spy shots of a prototype for BMW's next-generation 3-Series, arguably the automaker's most important model of the decade. It is expected to be revealed in late 2017 or early the following year, as a 2019 model. Like past generations, this new 3-Series, code-named the G20, will likely end up the benchmark for the small sedan segment when it comes to important metrics such as driving dynamics and performance. However, Mercedes-Benz and even Cadillac with their latest small sedan offerings have left BMW in catch-up mode. Fortunately for BMW, its engineers have developed one of the most advanced platforms in the business. BMW previewed the racing version of its yet-to-be-revealed 8-Series coupe during last September's 2017 Frankfurt auto show, and now after a torturous development program the completed car has been revealed.
